Item: SS9W

Saab NR: 12787998 LH, 12788001 RH

## Sport Sedan Bumper Strips

### Removal

Beginning at the sides use a thin screwdriver or trim tool to gently loosen the old strip from the bumper shell. See illustration for location of the securing clips (3). Disconnect the electrical connector (1).

Note: Be careful of the bumper shells painted finish. Please also note that these may not meet applicable local laws in your area. It is your responsibility to check.

### Installation

Secure the electrical connector (1) with provided cable tie to prevent rattles. Fit the molding by pressing into bumper shell. Please ensure all clips (3) are securely seated.
